B+B INTERNATIONAL S.R.L.

CORPORATE ENVIRONMENTAL POLICY

At B+B International S.r.l. we pursue our operational and strategic goals with a firm understanding that respect for and protection of the environment are essential elements for our success, important for clients and all our stakeholders, as well as a necessary act of responsibility toward present and future generations.
We implement a policy of prevention and continuous improvement of our environmental performance to ensure a model of sustainable development and help meet expectations that we protect the area in which we operate.

To uphold our sustainability strategies, B+B International S.r.l. is committed to:

- Conducting its activities and services in compliance with current legislation, and ensuring ongoing monitoring;
- Working in a safe and responsible manner that does not harm the environment or cause conditions that pose a danger to employees or the community;
- Evaluating the impact of its activities, products and services to manage them with the aim of improving established standards in waste reduction, optimization of energy consumption, pollution prevention, promoting the efficient use of energy resources and, where possible, renewable resources, as well as using the best technologies available;
- Operating with the utmost respect for the environment and biodiversity and maintaining a strong focus on environmental aspects (e.g. water consumption, energy consumption, atmospheric emissions, waste production) that are impacted by business activities;
- Running a preliminary assessment of the environmental impact of new processes, new facilities, as well as structural and organisational changes;
- Fostering a sense of responsibility toward the environment among all stakeholders by sharing the company's principles of good environmental management practices and by communicating this policy to them.

B+B Management considers the benchmarks outlined in the Environmental Policy to be key guidelines for planning business activities and is committed to periodically reviewing its contents to ensure it remains current.
Furthermore, B+B Management is committed to disseminating the contents of the Policy to all B+B International S.r.l. staff, as well as all interested parties who request it.
